

WRL300 BLE Relay

The WRL300 is a BLE 5.1 relay to control external signals. This accessory can work with Queclink's tracker which has BLE interface.
The accessory is ideal for vehicle and motorcycle access control, building access control, etc.

- Compact Size
- Easy installation
- IP64
- BLE 5.1
- Remote Control

Parameters

Waterproof	IP64
Dimensions	49mm*27mm*16mm
Weight	22g ± 1g
Operating Voltage	8 ~ 32V DC
Standby Current	< 1.5mA @12V; < 1mA @24V
Trigger Current	19mA@12V / 10.6mA@24V
Maximum Load Current	6A@250VAC / 6A@30VDC
The Max Switch Voltage	400VAC/125VDC
The Max Switch Current	6A
The Max Switch Power	1500VA/180W
Operating temperature	-40 ~ +85 °C
Transmission Range	Up to 80m (Open Field)
